

LIST OF PLENARY LECTURERS - Aula magna Rettorato Università La Sapienza, Roma

<i>NAME</i>	<i>TITLE</i>	<i>COUNTRY</i>	<i>DATE</i>	<i>TIME</i>
Masazaku Aono	Atomic/molecular-scale control of electrochemical reactions	Japan	14/9	8.45 - 9.30
Hironori Arakawa	Development of highly efficient dye-sensitized solar cell sub-modules	Japan	17/9	14.15 - 15.00
Samuel D. Bader	Spintronics Overview with Implications for Energy, Information and Medical Technologies	USA	13/9	11.15 - 12.00
Flemming Besenbacher	Catalytic model systems studied by high-resolution, video-rate Scanning Tunneling Microscopy	Denmark	13/9	14.15 - 15.00
Frank Caruso	Nanoengineered particles for therapeutic delivery	Australia	16/9	8.45 - 9.30
Steven J. Chou	Nanoimprint lithography and nanostructure self-perfection - unique enabling technologies for nanoengineering and nanoscience	USA	17/9	8.4 - 9.30
Maurizio Prato	Functionalized Carbon Nanotubes: Versatile Building Blocks in Nanomedicine and Materials Science	Italy	13/9	12.00 - 12.45
Erio Tosatti	Nanofriction and nanocontact conductance: classical and quantum surprises	Italy	16/9	14.15 - 15.00
Harry L. Tuller	Nano-structured materials for next generation fuel cells and sensors	USA	15/9	8.45 - 9.30
Viola Vogel	Playing with Forces: how the stretching of proteins can alter their functions	Switzerland	14/9	14.15 - 15.00
